EDUCATION

Computer Science - ERP (Enterprise Resource Planning)

Hogent Gent Belgium

Sept 2020 – present

In my education, I learn how to work with SAP and how to create a project for a client by first doing an analysis and then developing it.

Accounting computer science

O.L.V Ten Doorn, Eeklo Belgium

2018-2020 (5th-6th secondary school)

In my last two years of secondary school, I chose to study accounting and computer science. I got a mixture of accounting and economics with computer science. In computer science we learned how to program in C# and how to create websites with HTML and CSS.

REALISATION

In the second year of my studies, I had to develop a web application in a group. We developed a web application for a client using use cases, wireframes and mock-ups. Once our visions were in sync, we could start building the front-end using SAPui5.

SKILLS

Hard skills

- IT skills
- Uizard (mockups, wireframes)
- Latex, Jabref
- Presenting

Soft skills

- Social, kind
- Can work in groups
- Open-minded
- Trustworthy

IT SKILLS

SAPui5

SAP Logon

Java

SQL

Python

JavaScript

HTML, CSS

LANGUAGES

Dutch
